

Apollo Infratech Group - New JV Company Apollo Carmix Equipments Pvt. Ltd.

**Grand opening Ceremony of new factory in Gujarat to Manufacture
Self Loading Mobile Concrete Batching System in INDIA**

Apollo Infratech Group has started another Venture under the name of "APOLLO CARMIX EQUIPMENTS PRIVATE LIMITED". This new venture will be combining its efforts in a Joint Venture with the world renowned company "CARMIX, ITALY" to manufacture & supply Self-Loading Mobile Concrete batching system in India.

On March 24th, 2014, Apollo Carmix held a grand opening ceremony for its new factory in Gujarat. This important event was attended by Carmix Metalgalante S.P.A.- Italy President Mr. Rino Liborio Galante, Managing Director - Mr. Massimiliano Galante Marketing Director - Mrs. Manuela Rosa Galante and from Apollo Chairman Mr. Ajit T Patel, Managing Director- Mr. Mitul A. Patel, Business Development Director - Mr. Kiran M. Patel & Other officials.

In the event Mr. Galante has expressed his gratitude to their local Partner for their support. He gave special thanks to Apollo Carmix team for their incredible arrangement for successful event.

Mr. Galante said, that Carmix history begun in 1969. CARMIX background comes in fact from CARMAN the Company that in the early sixties started assembling parts and components supplied from old military and agricultural vehicles. Many years and millions of cubic meters of concrete later, CARMIX customers are enjoying the world's best self-independent Self-loading Concrete off- Road Mobile Batching System.

This is easy to operate and cost effective equipment represent world -wide the ideal solution to produce and distribute the concrete in the most difficult job site as well as in the most congested downtown or on a remote island/area. Carmix Self Loading Batching system works efficiently in over 150 Countries and now we proudly say that the same equipments are manufactured & distributed in India.

World Best Self-Loading Mobile Batching System is now made in India with two different capacities 2.5 Cu.m and 4 Cu.m. Another Capacity Modal (imported) will be available on demand from CARMIX Italy.

Apollo Carmix - Managing Director Mr. Mitul Patel said that Apollo Carmix has plenty of unique features with accurate weighing system.

Apollo Carmix product is the ideal solution to produce high quality concrete at lower cost wherever needed. Ideal for Rentals, Compact & Economic, High Productivity and Low Maintenance Cost.

Mr. Patel said that Carmix has strong manufacturing presence in Italy, its leading position in the global Market, and its positive vision of the future in India with world class product & technology. Apollo Carmix India operations will continue to grow. He expressed his gratitude to all the visitors and customers to make the event successful.
